TELEGRAMS
TO STANDARD.
By direct cables via Lisbon.

Athens, 10th.—Great preparations are going on to celebrate the silver wedding of the King and Queen next month, when some members of the Russian and Danish reigning families are expected.

Sofia, 10th—The National Exhibition has been opened at Philoppolis in presence of Prince Ferdinand.

Paris, 10th—The King of Dahomey has made another proposal of peace to Colonel Dodds, to gain time and stay the advance of the French troops. The Colonel has refused any conditions except the strict fulfilment of the treaty of 1890, and satisfaction for its violation and the attack on the French forts.

Vienna, 10th. The health authorities say that although there are some cases of cholera on the frontiers of Galitzia and Hungary, the public health is good all over the Empire, and that it will be hard for the epidemic to spread, owing to the low temperature and the lateness of the season.

Genoa, 10th—France, England, United States, Spain Germany, Argentina, Russia, Greece, Holland, Portugal, Japan and Mexico have war-vessels here, in all sixty ships. The Italians have 40 ships present. There are also 50 merchant vessels in port. The Italian ironclads Dandolo and Duilio, Italia and others attract attention to their enormous size and heavy artillery.

Paris, 10th.—The *Temps* says that Pasteur's anti-cholera lymph when tried on human subjects gives immunity for one week.

Genoa, 10th—The French Admiral says that, although he was prepared for a friendly reception, that given to him and his sailors surpasses all his expectations.

The foreign representatives here say that the whole thing will lead to better commercial relations between France and Italy.

Paris, 10th. The boiler of a factory in the Rue Buffon exploded, and 25 persons were killed and injured.

Warsaw, 10th—The Governor, General Gourko, has issued a decree expelling, from New Year's Day, from the country all foreigners that do not speak Russian. This decree will lead to trouble, as many Germans and Austrians here know nothing of the Russian tongue.

St. Petersburg, 10th—In spite of the opposition of the Court, the Grand Duke Nicholas will shortly marry the widow Burinin.

London, 10th. The fear of importing cholera favours the agitation against pauper immigration; and there is a demand for the temporary prohibition of all foreign labouring immigration.

San Sebastian, 10th — The French Government has claimed indemnity for the insult to Captain Viaud (Pierre Loti), who was recently turned back from the frontier by the Spanish authorities.

Genoa, 10th—It is said that an Italian squadron will visit the chief ports of those countries which have sent warships here to salute the King.

(Per Havas Agency.)

Paris, 10th.—Serious riots have occurred at Lievin (Pas de Calais) between French and Belgian miners; and both are so excited that fresh trouble is feared.

President Carnot has returned from Fontainebleau, and paid another visit to the King of Greece this afternoon.

Rome, 10th—The death of General Cialdini has caused a deep impression all over Italy. All the public buildings, Bolsa, banks, etc., at once displayed signs of mourning, and many houses of business were closed. Government has ordered a State funeral.

Hamburg, 10th.—In the past 24 hours 310 fresh cholera cases and 163 deaths here.

Genoa, 10th.—The Municipality gave a grand soiree to the King and Queen. It was splendid. Several Italian Princes, some of the Ministers, almost all the members of Parliament, Diplomatic Corps, foreign naval officers etc. were present.

(To the "Prensa".)

Glasgow, 10th.—The new Cunard steamer Campania, the finest steamer ever built, was successfully launched to-day.

New York, 10th.—The London Stock Exchange was very dull yesterday. Nothing doing.

Crespo has been offered the Dictatorship of Venezuela.

St. Petersburg, 10th.—Cholera has notably decreased all over Russia.

Hamburg, 10th.—Cholera is fast decreasing here.

Rome, 9th.—The death of Cardinal Feursberg has re-opened the question of the next Conclave, as the Sacred College is now reduced to fifty-two members. The Italians, Germans and Austrians are making great efforts to secure the creation of new Cardinals; Austria especially; but the Pope refuses to listen to the Emperor, as he does not wish to compromise his policy with that Power.

The probabilities are that the new Cardinals will favour the Triple Alliance: but Austria is daily losing ground. It is known that Emperor Francis Joseph and King Humbert have come to a secret understanding about the Conclave.

LOCUSTS IN CONGRESS.

For some days the locusts have held possession of the National Senate-house, and while we write the debate is still going on. Our legislators have become so heated over the subject that angry words have been exchanged, which the President of the Chamber has ordered to be expunged from the record of parliamentary proceedings.

It is admitted on all hands that some heroic effort should be made to exterminate these destructive insects, and the only dissension of opinion is as to the best means to be adopted. The first article of the Anti-locust Law provides a sum of $500,000 currency (say £30,000) is to be expended for the purpose: this was passed without much difficulty, although the amount would seem very inadequate to accomplish the end in view. It is proposed to insert another article which will empower the local authorities to call out all men between the ages of 17 and 60, foreigners as well as Argentines, and to impress also their horses, waggons and oxen in the work.

Some of the Deputies object that this is contrary to the Constitution, and if not contrary to the letter it is decidedly against the spirit of the Constitution. Nay more, it is a proceeding condemned by all commentators on international law as a revival of the worst practice of the Middle Ages, known as Corvée.

Corvée prescribed that every man should give one day's work with a waggon, or two days if he had no waggon, every year to the State. In modern times Corvée has been known only in Egypt, where Mehemet Ali constructed canals for irrigation by compelling the Fellaheen or peasants to work 100 days for the State.

The law now proposed is not to be limited to peasants, but would give the Justices of Peace and Commissaries power to impress all classes of society; physicians, lawyers, editors, men of fortune would be dragged from their homes and driven like Russian convicts perhaps over miles of country to combat the locusts. If every man had to leave his house and family on expeditions of this kind a gang of freebooters (such as abound in Santa Fé) would have a free time for rapine, murder and outrage.

But there would be a still greater evil, in giving to Commissaries and Alcaldes such an opportunity for a system of terror and tyranny as was never witnessed in any civilized country. The character and antecedents of many of the rural authorities, even within 100 miles of Buenos Ayres, shew us what we may expect if such men be given authority to enter our houses by night or day for the purpose of impressing all males under 60 years of age on such a Quixotic crusade.

Whoever has seen a visitation of locusts such as occurs at rare intervals in the Upper Provinces must know that any effort to exterminate them would be folly. They come like a snow-storm, so thick at times that they darken the sun at noon: it is impossible to see a telegraph post at five yards' distance. In a country like Argentina where the population rarely exceeds 20 to the sq. mile it is manifestly impossible to combat an invasion of this kind. The Emperor of Russia has 100 millions of subjects, but is unable to undertake such a task as the Argentine Congress proposes in this country with a handful of people.

Something, however, can be done to mitigate so awful a pest, and we may learn a lesson from what is done in Russia, Algiers and Cyprus. Two measures have been adopted with partial success. In the first place regular divisions of the army are sent to those districts where the locusts have laid their eggs, and the men are employed to make trenches and sweep the eggs into them. This entails no cost to the State, as the soldiers are supposed to be paid for giving public service, whether fighting men in arms or destroying an enemy like the locusts, that wars upon the national industry and the food of the people.

In Cyprus and in Algeria the authorities offer a fixed sum per gallon of locust-eggs, and in this manner secure the services of women and children on a large scale. The price paid is usually £40 sterling per ton, or 4 shillings a gallon. In the year 1886 the women and children of Cyprus destroyed 680,000,000 locusts. Large as this number may appear it is probably less than would settle in a single night on a "cuadra" of maize, say 2 hectares in area. The work done by soldiers in Russia has been found to average a ton of locusts daily by a battalion of 600 men; a ton contains 12 millions of locust-eggs. In fact each man can destroy 20,000 daily. We believe the results obtained by the French Government in Algeria were similar. Nowhere has it been possible to drive off locusts when they have once alighted on a place. The beating of drums and kettles, even the kindling of fires, is ineffectual. The only remedy is to destroy the eggs when the proper season comes.

We venture, therefore, to suggest to Congress a law more or less on the following lines.

Art 1st. A sum of 2,000,000$ currency is hereby voted for the prevention of locusts.

Art. 2. At the proper season after a visitation of locusts the Government is at liberty to send troops of the Line and to call out the Nat. Guards for the work of destroying the eggs.

Art. 3. Each Nat. Guard so employed shall receive 2$ currency per day, and the amount shall be defrayed in this manner:

50 per cent out of the Nat. Treasury,
50 per cent by a local rate on all houses, lands and other real property in the department.

Art. 4. The Government shall also offer a reward of 1$ currency per litre of locust eggs collected by civilians.

Art. 5. Every male foreigner between the ages of 17 and 60 in any district affected by locusts shall pay a single tax of 5$ currency or serve on the same terms as the Nat. Guard.

This law shall hold good until repealed.

By such means we shall be doing our best to combat one of the greatest dangers that beset the country. We must not expect to exterminate the locusts altogether, or even to prevent their causing at times enormous damage to crops. Agriculture is an industry attended with many risks: witness the Phylloxera in France, which has destroyed 2,900,000 acres of the most cultivated lands in that country. But, if we cannot wholly avert calamities we can do much to mitigate their ravages, and human ingenuity can hardly devise anything more effective against locusts than the measures adopted by Great Britain in Cyprus, by France in Algeria and by the Czar in Russia.

The idea of calling out the whole population of Argentina *en masse* to wage warfare against countless billions of an intangible enemy would involve the creation of a Commissariat Department on a vast scale to feed so many people. It would, also, be attended with tremendous mortality: over 500,000 Egyptian peasants perished while carrying out the works imposed by Mehemet Ali.

THE WORDSWORTH MAILS.

TWO DAYS LATER.

The R. Belgian mail-steamer Wordsworth, Comm. Chevalier Hairby, F. R. G. S., made a very quick run from London to Montevideo, and was there put in quarantine without the slightest pretext. She has clean bills of health and has had no sickness, on board. We are indebted to Captain Hairby for the *Times* of August 15th, which has the following news:—

The Marquis of Salisbury arrived at Osborne and had an audience of Her Majesty, when he tendered his resignation, which the Queen accepted with much regret. The Queen's dinner party included the Princess of Wales, Princess Christian, the Marquis of Salisbury, and the Marquis of Ormonde.

Sir Henry Ponsonby had another interview with Mr. Gladstone on Saturday afternoon, when the expression of her Majesty's wish that the right hon. gentleman should undertake the task of forming an Administration was communicated in the customary manner. The arrangement provisionally made on Friday, that Mr. Gladstone should visit Osborne to-day, was confirmed.

Mr. Arthur Herbert, Secretary of the British Legation at Buenos Ayres, has forwarded a supplementary report to the Foreign Office on the financial position of the province of Entre-Rios, dated Buenos Ayres, June 4 1892.

Victoria, B. C. 13th.

"Her Majesty's cruiser Warspite flagship on the Pacific Station, struck against a rock in Discovery Pass The vessel was very badly shaken, and leaked. The divers' examination reveals serious damage. Eighty feet have been torn out of the false bottom. The vessel will go into dry dock for the necessary repairs, which it is estimated will cost about $30,000.

Paris, Aug. 14.

The *Republique* says:

"By evacuting Egypt after receiving a guarantee that no other Power would take her place England would regain the valuable friendship of France, who is too busy in the organization of her immense colonial empire to be tempted to dispute new territories with her.

Loanda, Aug. 13.

Intelligence has reached here that a Congo State force has been annihilated by Arabs at Bena Kamba, to the south-west of the Bakuba country. M. Hodister, the commander, was tortured for three days and then decapitated. Only two whites escaped the massacre. Bena Kamba is situated at the confluence of the Lulua with the Kassai river, which flows into the Congo about 80 miles above Stanley Pool.

Melbourne, Aug. 14.

Mr. James Munro, the Agent-General for Victoria in London, has applied for leave of absence from his duties with the view of returning to the colony to answer the charges made against him in connexion with the liquidation of the Real Estate Bank. The matter was considered by the Cabinet yesterday and it was decided to accede to Mr. Munro's request. He will, therefore, return to Melbourne.

Tangier, Aug. 1h.

The Moorish soldiers on returning here declared that Hman had taken to flight at their approach. Hman is endeavouring to decoy the bulk of the Sultan's troops to Hareb, where they can be completely hemmed in and cut down to the last man.

Paris, Aug. 13.

A semi-official Note issued here this evening contradicts the statement that M. F. Souhart, French Secretary of Legation at Tangier, is about to take leave of absence. The Note adds:—"As to the allegation that the French Agent has presented a sum of money to the Moorish Ministers who prevented the Sultan from concluding a treaty with Great Britain, we think it hardly necessary to point out the apocryphal character of the story."

St. Petersburg, 14th.

The official cholera returns from the provinces show a large increase in the number of both cases and deaths, the former amounting to 9,177 and the latter to 5,009, as compared with 5,730 and 2,997 in the last daily bulletin. It is also officially stated that there were 13 deaths from cholera in this city yesterday.

Berlin, Aug. 14.

The project of holding an international exhibition in Berlin has now been finally abandoned. The official: *Reichsanzeiger* publishes the text of a report on the subject which was laid before the Emperor by the Imperial Chancellor, on the strength of which his Majesty has spoken the decisive word against the plan.

Constantinople, 14th.

It is reported that on learning of the Sultan's intention to receive M. Stamboloff the Russian Embassy begged M. Cambon, the French Ambassador, to try and dissuade the Sultan from doing so. M. Cambon at once went to the Palace and did his utmost to induce the Sultan not to receive M. Stamboloff. His efforts, however, proved unavailing, and M. Stamboloff was received immediately after the French Ambassador's departure from the Palace.

Paris, Aug. 14.

The resignation of his seat in the Chamber by the Marquis de Breteuil has caused a flutter among the Royalists. Next to the defection of the Comte de Mun it is the most serious blow they have received since the Pope's encyclicals have begun to take effect. M. de Breteuil does not, indeed, like M. de Mun, accept the Republic. He is still convinced that "a Liberal Monarchy, mindful of the needs of the democracy, could alone solve social questions.

New York, Aug. 14th.

The *Herald* prints a long despatch from Trinidad containing particulars of a decisive battle, which was fought at Ciudad Bolivar, Venezuela. The Legalist commanders displayed much astuteness in the conduct of the fight. They first sent a brigade to attack the Government intrenchments, and after a short engagement the troops retired, apparently in great disorder. The Government generals fell into the trap, and ordered their men to leave their intrenchments and follow the enemy. They started in pursuit of the flying Legalists, but when they reached the plains outside the city they were confronted by the Legalist reserves, which far outnumbered their own forces.

A hot engagement followed. General Hernandez had stationed a number of sharpshooters in good positions, and these harassed the enemy by shooting their officers. At this stage of the conflict three generals and many field officers were killed and wounded. The first attacking column quickly re-formed and joined in the fight, whereupon the Government troops wavered and began to give ground. Just as the retreat was begun a decisive blow was struck by the Legalist cavalry, which had been kept in reserve. They charged with fury upon the broken and dismayed ranks of the Government army, which were thrown into complete confusion. The retreat became a total rout, and the victorious Legalists entered Ciudad Bolivar and Soledad without opposition. On the Government side 500 men, including Generals Carrera, Acosta, and Laudalta, were killed. The Legalist loss was nearly as heavy, but included no generals.

OUR LONDON LETTER.

THE DEBACLE.

(From our own Correspondent.)

Aug. 11th.

We can speak of the overthrow of the Government as an accomplished fact, though the division on the debate on the want of confidence motion does not take place until to-night. The expected Gladstonian majority of forty may be reduced by the illness of Mr. Cremor, the double election of Mr. Brien for Cork city and for a county district, and similar accidents to thirty eight and even less. We assume that the division will be in favour of Mr. Asquith's amendment to the address, and that to-morrow Friday—Lord Salisbury will go to Osborne, and that on Saturday the Queen will send for Mr. Gladstone—the Duke of Devonshire is now at Osborne by the way—and that on Monday the House which adjourns to-night will again be adjourned to this day week. Mr. Gladstone, meanwhile, will have constructed his cabinet and on Friday or Saturday in next week there will be a general stampede and Parliament will be prorogued until February 1893. The gorgeous weather we are enjoying will certainly hasten that stampede; but possibly the noblemen and gentlemen who combine the love of the 'game of politics' with our national sporting instincts will be consoled with the idea that hot as it is in London, it may be hotter on the moors to-morrow.

Sir Robert Hamilton is on his way to England from New Zealand armed with fresh proofs from that country of the blessings of Home Rule, and with fresh dodges for the details of Mr. Gladstone's Home Rule bill which Sir Robert so largely assisted in drafting six years ago. As time and the Bill unfold, we shall know how far colonial notions of Home Rule suit the ambitions of Irishmen. All we know now is that Mr. Gladstone in his speech last night has been fair enough in his promises. In what the *Pall Mall Gazette* calls the Irish concordat Mr. Gladstone places an "acceptable Home Rule Bill in the fore-front", an assurance that bill will be pressed forward with as much energy and force as the incoming Govt. is capable of. An assurance in cautions Gladstonese that if the House of Lords rejects the Bill he will destroy it. He proposes an inquiry into the condition of evicted tenants—he threatens to suspend the Coercion Act and to inquire into the cases of some of the men imprisoned in connection with dynamite outrages And for England and Scotland and Wales he speaks hopefully of reforms in electoral procedure and Labour questions to be undertaken concurrently if possible with the Irish Home Rule Bill, the details of which he very properly refuses to divulge or discuss until he is in the position of a responsible minister.

If all this is more than Gladstonian verbiage, it means that the debacle is not merely the fall of a Ministry—the unseating of a Mr. Balfour or a Mr. Goschen—but the downfall of a governing class, firstly in Ireland and then in Britain. It must mean more, for the landed interest in England and Wales and their Church as it exists, as their instrument, cannot survive any further extensions of popular power, and these institutions are the last props of the monarchy, which, without them, must be either a farce or absolute. The whole of the speeches of the movers of the address, from the lispings of Lord Denbigh in the Lords to the blundering comicalities of Mr. Cross in the Commons, were a plea for landed interests. The voting of the agriculturalists in the late election, as you will see by the Conservative papers, is of far more immediate importance to the privileged classes than Home Rule in Ireland. It is no wonder that the classes and the court are seriously alarmed. For they see what we all see, that the Tories of themselves are powerless, and that behind Mr. Gladstone and the chapter of accidents dependent upon the life of a man of 83, are Sir Charles Dilke and Mr. Chamberlain, who are biding their time to head a Radical movement to which Gladstonianism is but child's play. This you may rely upon as accurate. I have not much faith in Lord Rosebery. And as for Lords Ripon, Spencer, and Kimberly and the "old gang," they only nominally exist in the shadow of their great leader. Well and good, if the gang holds together long enough to pass Home Rule; but only after that, or after the attempt to pass it is made, shall we know the full force and significance of the elections of 1892; and as Mr. Gladstone himself has said, of the "increased energy" and, as he might have added, the novel directions of the existing popular demands.

POSTSCRIPT.

Friday Night,
12th August.

I do not attempt to write. There is but one subject thought of—the defeat and the full majority of 40. I was at the National Liberal Club up to 2 a.m. this morning and saw the Irish members come in from the House gleefully rubbing their hands and saying: "We did good work to-night." From what was said I could add nothing to the description of the scene in the House to what I send you from the *Pall Mall*, which will last you a week. We are all tired out, and those who can afford it are already off to the moors and sea-side We have now nothing before us but six weeks of dulness. The weather is grand.

DUTIES ON PAPER.

A PUBLIC FRAUD.

(From the "Courrier de la Plata.")

Every year the gentlemen of the Zarate paper-mill give a lunch to Congress just before the tariff comes up for discussion. Last year the official valuation of paper had been reduced in Congress but on the day after the annual lunch Dr. Varela Ortiz moved to have the old valuation restored, and the House agreed to it.

The Customs-tariff imposes 11 per cent duty on paper, but the valuation is put at the preposterous figure of £52 sterling per ton or 26 cents gold per kilo, which is three times the real value

The *Courrier* for example got (among others) an invoice of 3 tons of paper, value 272 dollars, on which the Custom-house put a valuation of 767 dollars gold, and compelled us to pay 84 dollars gold for duty: the duty at 11 per cent would have been only 30 dols. So that in fact we paid over 30 per cent duty. This was, clearly, not the intention of Congress, as a duty of 10 per cent. would have been quite sufficient to protect the manufacturing interests of the Zarate gentlemen.

LATEST FROM MONTEVIDEO.

Saturday Evening.

The Committee of Finance of the Legislature are, it is said, amending the Bill for the coining of three million, and are going to advise the Chamber to call for bids for the coining of the amount in question. In this way the Committee think the Government will make $300,000 per million. It is, moreover, probable that the Committee will make the amount two instead of three millions.

The Columbus Fêtes Committee are, it is said, on the point of resigning, in consequence of a project for bull-fights on the anniversary.

Government intends knocking 20 per cent off all official salaries, which is calculated to effect an annual saving of 3 million dollars.

The passengers by the Magellan were allowed to land yesterday after eight days' quarantine on Flores Island.

Last night two burglars broke into a house in Calle Canelones. One of them was caught by a policeman, and while another policeman endeavoured to capture the other received a fearful wound, which caused death to supervene almost immediately.

The passengers by the steamer Alfalfa have been allowed to land.

Advices from the frontier state that there is quite a stream of political refugees coming from Brazilian territory. The attention of the authorities has been called to this significant feature.

PROVINCIAL NEWS.

As no telegrams were received yesterday from either San Juan or Santiago del Estero, it is impossible to know what degree of truth there is in the reports of revolution etc. which alarmed the city on Thursday. These alarms, which "overcome us like a summer's cloud" are extremely prejudicial to the good name of the interior, while they serve to throw ridicule on the nation at large. The public are, no doubt, accustomed to these "bolas," over which sometimes a shadow of veracity is thrown by the supposed discovery of a deep-laid plot, but the honest immigrant who lands on our shores may be deterred by such wild reports from settling in a province where his labor would represent a regenerating element.

That discreet and esteemed contemporary, the *Dia* of La Plata, which has so often contributed to supply us with useful information in regard to the queen province, has in its last issue an interesting correspondence of a chit-chat nature about Saladillo. We gather therefrom that the good people of that rising town are beginning to feel the social necessity of starting a club, and that efforts are being made to found one as soon as possible. The good Saladillenos are very fond of sport; they have a fine race-course and go in for betting on a large scale. This "aficion", which is now an old established feature of the queen province, is not of such long standing in the Interior, where enthusiasm for the attractions and excitement of the turf is now so general. In Tucuman, for instance racing was only introduced two years ago with the attendant excitement of "sport" betting, and such was the degree of blissful ignorance of the good Tucumanos that when they saw the novel word "Sport" inscribed on the window panes of the Aguila Confiteria in the principal plaza, they trooped in to ask for a "copita de sport," and were surprised, we might even say disappointed, to find that "sport" was not a drink. There is now some very good blood in Tucuman and enormous sums change hands on racing days. Can this be progress? No: but it shews there is plenty of money, and plenty of money indicates prosperity: ergo—

Advices from Arbolito, F.C.S., report the complete destruction of Mr. D. Martinez's large store by fire. The losses are put down at $70,000.

THE IRISH ORPHANAGE.

The annual General Meeting of this Institution was held at the Orphanage on Thursday. Dr. O'Farrell, who occupied the chair, read the financial report of the Committee, which shows a balance in hand of $7,868.

Father O'Reilly expressed his regret that the Orphanage should be charged with $1,400 a year for a Chaplain, as he throught the Chaplain's work ought to be done by the Passionist Fathers.

Mr. John said that this was impossible, as the rules of the Order prevented them from celebrating service except in their own church. Mr. Bulfin proposed and Mr. Morgan seconded a motion that the Passionist Fathers be asked to reconsider their decision. The motion was passed unanimously.

Dr. O'Farrell remarked that the Fathers were very obliging to the Institution and were always ready to give spiritual retreats and lectures to the children.

The Rev. Father E. O'Relly, of Dublin, said that he had been in the country only a short time, but, from what he had seen, the arrangements for collecting subscriptions were defective, and he proposed that the names of all the subscribers and those who refused to pay should be published in the *Southern Cross*.

Mr. Dinneen said that this would be highly inexpedient.

The Chairman recommended Father O'Reilly to allow his proposition to be considered as a suggestion to the Committee, to which he consented. Mr. O'Curry said the clergy had more facilities than laymen for collecting money in the camp, and that sermons ought to be preached for the benefit of the Charities.

Mr. Morgan said that he had been in the camp all his life and he believed that the announcement of a Charity sermon would keep everybody away from the church.

Father O'Reilly, of Chivilcoy, an earnest worker for the Institution, said that the few Irish priests in the camp had too much to do to give any time to preaching charity sermons —*Herald.*

REST ON SUNDAYS.

Mr. Editor,

The correspondent that recently informed your readers that Congress has passed an Act providing for the closing of the Columbian Exhibition on Sundays made a natural mistake.

The Act referred to the Government buildings and exhibits only, and left the matter of closing the grounds and general exhibits in the hands of the Board of Directors of the Exhibition, where it belongs.

As the Columbian Exhibition is in Chicago, local influence will be in the direction of opening it on Sundays, as the large German element there has made it a very liberal city as regards Sunday amusement, too much so, the general opinion of the country seems to be, as beer-gardens, theatres, &c, are in full swing on that day.

However, work is not tolerated on Sunday in Chicago or anywhere else in the States; but even in Puritan New England recreation on Sunday is allowed to a much greater extent than a very few years ago.

In Boston the Art Galleries, museums, &c., as well as the summer gardens are open on that day, but all saloons, &c, where liquors are sold are closed. Recreation is encouraged, but amusement pure and simple is not tolerated, not even ball-playing and skating being allowed.

INFECTION BY PAPER MONEY.

Sept. 9th

Mr. Editor,

I note just lately in your valuable paper some of your subscribers propose remedies for keeping the Ganges visitor at bay here, should he pay the Plate a visit. As yet I see nothing is said about the filthy paper money now in circulation.

Could we have a better way of circulating the plague if we wish to? I think not, and all the whitewashing etc. would go for naught.

I have heard some talk of substituting metal coinage for our small change. In view of the expected danger could this not be pushed forward, or like a great many other things will it be completed after the damage is done?

Yours truly,
H. Smith.

RAILWAY ITEMS.

It has been decided by the Government to submit the question pending with the Pacific Railway in regard to the reimbursement by the latter of 50 per cent of the gross returns to arbitration.

The Local Board of the Villa Maria and Rufino Railway have laid before the N. R. Board the guarantee account for the half-year ended March 31. The amount is $122,493 gold.

Government has authorized the Railway Board to build a branch from the station at Rosario de la Frontera to the thermal baths, 5 kilometres in length.

Messrs. Bemberg and Co. have been authorized to revise the plans of the San Rafael and Mendoza Railway as drawn up by the Department of Engineers.

EDITOR'S TABLE.

Affairs in general were rather sprightly yesterday, in spite of the very serious news about the locusts and the reported disappearance of 100,000 rounds of ball cartridge belonging to the State. The latter news, however, was contradicted in the afternoon by General Palacios, who wired that the ammunition had arrived safely at the encampment at Santa Catalina. In the evening Dame Rumour put on her bonnet and cloak and went about saying all kinds of queer things.

The National Senate did not sit yesterday.

The raffle for the pony Gouty Owl took place last evening at 5.30. The winning number was 33, drawn in the presence of Messrs. Murray Tulloch and Robson.

We hold for our Packet Edition on Tuesday a very interesting letter from an English merchant, warmly endorsing what Minister Hansen says of the economic folly of bolstering up that Will o the Wisp—native industry.

We are delighted to hear that the dramatic community of the "Village of the Plain" have at last awoke from their slumbers and intend giving a performance of Robertson's charming comedy "Ours", for the benefit of the Boys' Orphange and other charities."

The good and charitable ladies who have the Bola de Nieve in their charge say that the children under their care are very badly off for clothing and food just now. They only ask for one paper dollar from each good Christian; and the trifle can be left at 1064 Calle Cerrito.

For the information of those who cannot get on without keeping up a correspondence with relatives and friends in Europe, we beg to state that the next mails for that worn-out Continent will close as follows; to-morrow at noon on Wednesday at same hour, and on Thursday at 1p.m.

The following telegrams are detained at the River Plate Telegraph Co., San Martin 287:—From Rio for Carrara, 835 Cerrito; from Milano for Baleari, Teatro Pasatiempo.

We are requested by the family de Boe to thank the crew of the dredger Frias and all those who charitably assisted in the burial of their brother Marinus, who was drowned on the 7th of this month.

Fra Diavolo to-night at the San Martin, and to-morrow the ever popular Marchetti will take his benefit. He should have a rattling bumper, as a small return for all the laughter he provides for the public.

There was a little cub-hunting in Calle Florida on Friday. The cub was mad. A heroic policeman and some citizens who had their worst pantaloons on and were consequently indifferent as to their being rent by the dog's teeth, gave chase and finished off the quarry before it could do any harm.

The Historic Museum is to be removed to the building that used to be occupied by the Military School in Palermo. The Director of the H.M has asked Government for some pieces of artillery which date from the colonial epoch and which are at present in the Parque Nacional.

The following are the principal prizes of the Montevidean Lottery, drawn yesterday:—9358, 20,000; 5940, 1000 2704, 2025, 500 each; 2703, 3199, 4651; 200 each; 5925, 8882, 3722, 7848, 10257; 4684, 3042, 100 each.

It is our painful task to chronicle this week the death of another of our pioneer countrymen, Mr. Lawrence Maguire, of Salto, who died on the 30th of August last at the fine old age of 83 years, from an acute attack of bronchitis which the tender care of his family aided by the science of Dr. Cipello was unable to combat. The funeral, which was numerously attended by all classes and nationalities in the neighbourhood, testified to the respect and esteem in which deceased was held. We join the the many friends of his sorrowing family in tendering to them our sympathies.

Now that summer is coming there is an increasing demand for quintas. That of the Golondrinas at Lomas de Zamora will be a happy windfall to whoever wins it in the lottery. It is in the style of an Italian nobleman's villa.

The deed of sale of the old Colon Theatre is at last being made out in the "escribania" Almanza. The purchase money amounts to $2,411,211 %, a very respectable sum. It is, of course, a mere transfer of title from the Banco Nacional in liquidation to the Banco de la Nacion. But the news will touch a chord and for many of our readers awake some of the sweetest and happiest associations. "For long departed years extend, their visions with them flown; and Memory is the only friend that grief can call its own." How many of us inwardly weep at this sale of the dear old Colon.

To-morrow evening at 8.30 there will be a Christy Minstrel performance by real, genuine Darkies at the Vaudeville Theatre, in aid of the new church of the Passionist Fathers.

If anything could create a good impression in England it is the remarks of Mr. Hansen, the Finance Minister, on manufacturing industry in this country as opposed to pastoral and agricultural occupations, for which Argentina is so eminently fited by nature. We reproduce those passages from his Message to Congress in our usual packet-edition, Tuesday morning.

If 'Anglo-Argentine' will kindly send us his address we shall be able to put him in communication with a gentleman who takes a warm interest in the matter treated of in his letter of yesterday.

We have received the following for publication:—

"In your issue of the 9th inst., your sporting correspondence says the rider of Enchantress in the Hurlingham St. Leger was suspended from further appearance on the course. This is entirely wrong. The stewards took exception to the way the race was ridden and reversed the Judge's decision. They have no power whatever beyond the meeting itself, such matters as the suspension of Jockeys being in the hands of the racing Committee of the Club."

I am dear sir,
Yours truly,
M. G. Fortune.
Sec.

The great political news of the day was the retirement of General Lucio Mansilla from the Army. We hope the Minister of War will not accept it, as the gallant General, whether in the perfumed chambers of Congress or the tented field, is always a public favorite. If the General retires now people will only excuse it on the supposition that he is going to Europe or the Chicago Exhibition, or going to stand as next candidate for the next presidency. We can imagine the gallant General standing in martial attitude on the terrace of the Government House and exclaiming:—

Farewell the plumed troops, and the big wars,
That make ambition virtue! O, farewell!
Farewell the neighing steed, and the shrill trump,
The spirit-stirring drum, the ear-piercing fife,
The royal banner; and all quality,
Pride, pomp and circumstance of glorious war!
And O you mortal engines, whose rude throats
The immortal Jove's dread clamours counterfeit,
Farewell! Mansilla's occupation's gone!

Weather dull in old London yesterday. News came in six minutes.

It may be of use to a favoured few to know that the Western of Santa Fé Railway will start a brand new time-table on 1st prox. We appeal to the new general railway agents, Messrs. Horrocks and Fulford, to confirm this news.

There is deep dejection in prize-ring circles at the short, sharp and decisive action of the City Fathers in putting their heels down on "funciones de boxe." The respectable public of all nationalities, however, applaud the action of the Municipality.

Locusts have appeared in Florida department in Banda Oriental. They lie half a yard deep on the ground, and the branches of trees snap like twigs under their weight.

At their sitting on Friday the City Sages were again in a serious frame of mind. They began by putting their heads together on the never-ending question of wooden pavement. They then dashed into the equally exciting topic of stone pavement, and finally had a long debate in reference to an evil to be found in all large cities. On a division the new "reglamento" that will tend powerfully to spread this evil over the whole city was carried by 13 votes to 8. Another blunder of the Wise Men that will not be long in making itself felt.

There was a blaze in a Corralon in Calle Garay on Friday night and some wooden shanties inhabited by working families ended in smoke. A bale of hay fell on Commissary Lee and rolled him to leeward with such force that he was somewhat hurt. A young workman about to be married and who had bought a lot of new furniture to make his bride comfortable, saw it all destroyed before his eyes. "Absit omen" young man.

A sad affair took place at the Central Station on Friday night. On the arrival of a train from La Plata a lady, Mrs. Novello, dropped dead on the platform; and there was a very painful scene amongst the members of her family who were with her.

We are glad to see that the now rather unfashionable virtue of gratitude still lingers in that supremely fashionable place Belgrano. The Lord Mayor has always had a soft corner in his heart for Belgrano, and has worked his hair off in trying to beautify and improve the place. Now in return the residents intend to give him the best dinner to be had for shinplaster and a gold card with suitable inscription, to boot.

What's the matter with old Plaza Once? The stench there at morn and dewy eve is shocking. As soon as he gets through the Belgrano dinner we'll ask the Lord Mayor to inspect the place; and advise him to put a bottle of Eau de Cologne in his pocket. The whole town is getting rather stenchy as Spring draws near.

In Montevideo they seem to have some special and superior information about the state of affairs in that poor specimen of a republic Brazil. It appears that another revolution, probably bloodless, is brewing in that loose-jointed country. All right. It mostly concerns the pockets of our London friends.

An old negress 120 years of age died in Montevideo last week. Her heart got rather tired after such a long spell of work and suddenly stopped.

ON 'CHANGE.
Saturday, September 10th 1892.

The week's settlement imparted some activity to the speculation this morning and the Germans sold freely, but gold ruled very steady. Fifteen thousand ounces changed hands; the price opened at $53, rose to $53.10, and closed at $52.90, say 225.03⅛ premium. Nothing was done in sovereigns. Patriotic Bonds were very firm and active; they rose for cash to 73.20 and closed at 73.10, the price for end of month closed at 73 40. Internal Bonds, however, were very weak and dull, closing at 67.40 for cash and 67.60 for end of the month. Catalinas were steady at 10.60. Obligaciones tottered between 1.10 and 0.90. Agricola Comercial rose to 25. Municipal Consols were weak at 58 and La Plata Cedulas ruled dull but very firm at 29.90.
The exchange rate is maintained in the open market at par in sterling and francs, and a good deal offering. Discounts continue easy.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Mr. Pierce Power, connected for the last year with Messrs Mallmann and Company, took leave of his friends on 'Change to-day. He leaves next week for Europe on a short trip and expects to be back in the Plate towards the end of the year. Mr. Power has been one of the largest wheat buyers in this market this year.
The Direccion General de Rentas has endorsed the bill of the South American Bank-note Company for $8,331⅔ for work done during the month of August.
Messrs Duratona and Maffies have proposed Mr. Gunelgo Sol to survey the land concession granted to them in the territory of Formosa.
The works carried out by Messrs Madero in the port during the month of August represent a cost of $199,988 gold. This amount should be paid to the concessionaires in Certificados del Puerto, but as there remains a balance of only $181,370 gold on account of the first loan, the account cannot be liquidated; $25,166 gold for work done in the South channel are also in suspense. The certificates due for August are as follows:—

Cheques of the Provincial Bank closed at 36¼% discount; those of the National Bank 22% discount. Bonos of the La Plata Mortgage Bank at 22-20% of their face value.

Advices from Santos announce the suicide of Mr. Stahlsmith who was recently employed in the British Bank of South America here and left that position to accept a more remunerative post in Santos. Deceased was well known here.

A subscriber writes urging that the private banks open special offices for the exchange and conversion of paper money, as was the case in the Provincial Bank. We think that the idea might be carried out to the advantage of both banks and public.

Notwithstanding that this was a split week the payments this evening were large, and the tables of the Bolsa and the counters of one or two of our private banks were very crowded. Politically speaking, we suppose the week shows an improvement; the Romero influence on the gold market continues. Faith in the Saenz Peña Government increases, and from one cause or other, there was far less anxiety in the market this week than last. During the week we have had large exchange operations, which although said to be for the Banco de la Nacion, were in reality for the National Government. This exchange business moved the price of gold for a day or two, but in nothing affected the market, since in spite of the Government taking exchange the rate during the week has gone up ¼ to 1%. The retail business in the town was never brisker. The camp "pulperos" are flocking into the city with money in both pockets to purchase for the shearing season. Large and valuable sales of real-estate have been concluded during the week, and so brisk is the business at the "escribanos" offices where the titles to property are perfected that it is easier now to interview an American dentist than a city "escribano." In the produce markets also there was a good and healthy movement during the week, and it is all bosh what some of these brokers say about dull times in the market. Wheat, maize and skins were all dealt in; we, for our part, never remember a busier winter season. At the auction marts and the 'ferias' higher prices than ever were paid for good rams, bulls and stallions, and spite of all this great movement going on money rules easier than ever; first-class trade pagaré lists are snapped up at 5% per annum and even something under. Next week we hear we shall have some 'novedad" in the shape of a meeting of the new Cabinet to discuss a programme. In high banking circles the lines of this programme are well known, and it is probable, as our friends in London, Paris and Berlin are so determined to help us, that this very programme, which Mr. Frank Parish sketched for us last year in London, will be finally carried out.

Sheepfarmers and estancieros will be much interested in knowing that Mr. Casey has paid Don Bernardo Yrigoyen for a troop of fat English capons for his market 15 dollars each, being about the highest price ever paid for capons in the River Plate. But then it is necessary to remember that each capon gave from 75 to 100 kilos of meat. They cannot produce in England better mutton than what is raised on Dr. Bernardo Yrigoyen's estancia.

The very large robbery at Mr. Migues house of gold and stocks attracts notice and goes to show that, no matter what may be argued to the contrary, people still keep gold locked up in their houses, and that cash gold held by the Banks does not by any means represent the total cash gold in the market.

The La Plata Minister of public works has just returned from a visit of inspection to Olavarria, Bahia Blanca and Southern towns. These visits are most useful and may lead to many great reforms in the camp. The Minister was well pleased with what he saw in Bahia Blanca and at the port.

The news about the locusts is anything but favorable; they have passed and repassed many places and in some have done great damage. The new law now passing through Congress may possibly effect some good, since every inhabitant native and foreign under 60 years of age will be compelled now to turn out in the country districts to kill the locusts. The whole National guard of the country will be called out for this new and most necessary war; a year ago we proposed that the National guard in Santa Fé should be called out to fight the locusts, but we were laughed at for suggesting such a thing: now the law of the land enforces our suggestion. $300,000 have been voted by Congress to meet the expenses; last year the amount for this purpose was but $10,000; the money however is well spent if the victory is complete. The danger seems to us very imminent, since the Post Master's telegram, which is semi-official, states that 5 leagues of land at the Langworthy colony in the Gran Chaco are covered with locusts which it will require the army of Xerxes to annihilate. A good storm or a thunderbolt will prove more effectual against the locusts than the whole population of the Republic with flails in their hands to slay them; nevertheless human efforts against this pre-historic pest have in certain countries succeeded, and through the unconquered energy of an Irishman, or a Scotchman in the Island of Cyprus, the primrose Government of Great Britain finally succeeded in stamping out the locusts. Last year we had a most miraculous escape, and only the people who live along the SE. coast of this Republic were aware of the magnitude of the danger which we escaped. The tide brought back the dead locusts from the ocean, and not even Babbage's renowned counting machine could afford figures or numbers to represent the billions and billions of dead locusts that strewed the seashore from Cape Corrientes to Cape Horn. A strong gale of wind saved this country last year from the greatest locust invasion known to the world since the days of Pharoah. Let us hope that Providence will favor us with some gales this year. A good stiff Santa Rosa storm now might be worth more to Lord Rotschild, the Bank of England and the Moratorium Committee than what all these London magnates dream of. We are glad to see Congress legislating on the subject, but whoever wandered along the sea-shore for a few leagues on our S. E. coast last year and saw the hecatomb of locusts at high water mark can gauge the puny efforts of man to struggle against perhaps the greatest enemy that nature has sent against him.

The President has sent a message to Congress asking for authority to remit to him the President of the U. S. $10,000 sterling to cover the cost of the arbitration of the limits question between this country and Brazil, and we suppose that Congress will at once vote it, as it will be money well spent if it once and for ever settles this long-pending question.

The disastrous fire at Arbolito on the Southern Railway is a caution to country merchants about properly insuring their premises. The large store of Sr. Martinez was completely burned to the ground and nothing but ashes left of the valuable stock of goods on the premises.

The National Mortgage Bank seems to be going ahead in the way of amortizations, it announces for next November a very large amortization of National Cedulas, and holders would do well to at once consult the notice.

The National Minister of Hacienda, Sr Hansen, has very properly moved in the matter of the navigation of the Boca canal, as through one cause or other there have been frequent accidents, and generally speaking the blame is thrown on the pilots, who henceforward will have to report themselves twice a month at the Port-captain's and always whenever a vessel under their charge runs aground.

The latest news from Montevideo is that all the telegrams coming from Paris announce the loan as done, but as yet no deposit whatever has been made. This looks fishy; nevertheless houses of the highest respectability have telegraphed out that there can be no question whatever about the loan, and that it is concluded on the terms agreed on. The Montevidean market of course takes a great interest in the news, as it is the general opinion that the proceeds of this loan will revive the market. The Contribucion Directa law has been at last passed, there has been no reduction whatever in the exorbitant valuations of properties, but Art. 6 gives the unfortunate owners the right to petition for a reduction when the valuation is notoriously excessive. The Senate have reduced the salaries of the public employees 20%, but they have made no reduction in their own salaries, which speaks the tone of the Montevidean legislative mind.

We understand that Mr. de Candia is about to lay a proposal before the provincial Government of B. Ayres for the construction of a graving-dock at La Plata Port. We also understand that Sir Edward Reed, M. P. for Cardiff and Chief Naval Constructor for the British Government, is the Consulting Engineer to the syndicate, of which Mr. de Candia is the representative.

At a judicial auction in Montevideo yesterday, the fine estancia Cuaró, in the department of Salto, was sold for 33,050 dollars, of which 24,000 in Cedulas, which brings the land out at a very cheap purchase, two 'suertes' of fine estancia land. Sr. Lopez Saralegui buyer.

It is rumoured that the Provincial Minister of Hacienda is about to resign. This news has taken us by surprise, as the Minister's new scheme to pay off the debts due by the Government and the Mortgage Bank to the Provincial Bank has not yet been discussed.

All the maize brokers say that maize must fall to a parity with the prices in Europe, which is about 5,50. 2000 bags were sold in Rosario yesterday at the high figure of 6,70, and 18,000 bags at the Rio Santiago for 6,30; but sales were made in the Once of Morocho at 5,90. 200 tons maize San Nicolas at 6$ and several lots of maize were offering today deliverable at Rio Santiago at 6.35.

Some of the large exchange operations of the week were paid for to-day. Although they figure for the Banco de la Nacion, we believe that in reality they were for the Government, as the service for the 86 loan has always to be remitted to London, and it is remarkable that nothwithstanding the large amount of exchange taken during the week the rates have advanced from 3 to 4%.

In the wool market the sales now are few and far between; 50,000 kilos entered. Yesterday a lot of 12,000 kilos of Lincoln was sold at 8,70 and 1000 kilos of lambs at 6. These prices will always guide the farmers outside as to the market rates.

The Caja de Conversion has burned $1.000.100 notes of the New Italian Bank, and $196,000 for which new notes were given.

The Minister of Finance has fixed the rate of gold at 320 for payment of Customs dues.

In reference to the new pumps for the Water Service at the Retiro, Government has notified the contractors that the time has come to enforce the rescission contract, and the contractors must erect the new Pumping Station within a given time.

DEPARTURES.

British steamer Queensland for Rio and New Orleans to load for Liverpool. She took 600 tons of cereals for Rio.

N.A. barque Spartan for Rosario to load.

Brit. steamer Creswell in ballast, for rivers, to load.

The Norwegian barque Plutarch which was aground floated to-day at 6 p.m., assisted by several tugs.

The U. S. S. Essex will leave tomorrow for Colonia.

The Espagne left Santos to-day for the Plate.

The French steamer Pampa from here arrived at London on 9th inst.

The Vittoria left Las Palmas for the Plate yesterday.

The Buffon entered the Darsena to load wheat and maize.

The Newton left to-day for Rosario to discharge and load.

The Houston steamer Heraclides left La Plata dock to-day for Rosario; she will probably leave for the U. States direct. The many friends of Capt. Mitchell, her gallant skipper, will regret to hear that he is laid up with a severe attack of bronchitis: we join his many friends in wishing him a speedy recovery. Captain Mitchell is one of the most popular skippers in these latitudes, and there are many who regret that his fine steamer no longer takes passengers, although she has splendid accommodation.

The German bark Carl Both has been chartered by Charles H Reynolds to load Cedar wood in the Boca for New York direct at reserved rates.

TEA
LA MAGNOLIA

INJURIOUS TEA DRINKING.

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 12 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

GUARANTEED PURE.

Beware of gross, imitations of this well-known mark. Sold in tins of 1, 3, 6 and 12 lbs.

CHARLES OLMI
A SPLENDID PROPERTY
9 yards front by 30 deep

Seven rooms, solidly built, bath-room, w.c., coach house, plastered ceilings and boarded floors.

2118--Cochabamba--2118

between Pasco and Rincon

Upset price: $8,500 m|n

If I take into consideration the splendid state of the property, the rent it gives ($125 m|n per month) and the pretensions of the owners in that neighbourhood, the conviction is forced upon me that the upset price of $8,500 m|n is ridiculously and absurdly low.

It is only because the owner is forced to leave the country that such an opportunity as this could arise.

On Sunday, 11th of September

at 1 o'clock sharp in the afternoon

I will proceed to sell at public auction with the upset price of $8,500 m|n this magnificent property, which can be seen any day and evening after Thursday 8th.

Titles are perfect, and can be seen at my offices

566--PIEDAD--566

The furniture which adorns this house will also be sold by suction, according to the aviso following this one, on the same date, Sunday, 11th inst.

The sale will commence at 1.30 p. m., after selling the property.

CHARLES OLMI
Magnificent Furniture

A sala suite Louis XVI, curtains, carpets in all the house, grand French up-right piano by Bord, splendid bevelled and gilt mirrors, Bamboo bed-room suite, imported dining-room suite, plated ware, curtains, porcelain and al. the household effects which adorn the house

2118 Cochabamba 2118

(between Rincon and Pasco)

which will be sold by public auction on Sunday 11th of September at 1.30 in the afternoon by order and account of the owner, Mrs. Enriqueta H. de Bonin, who leaves the country.

The house will be on exhibition day and evening from Thursday 8th on.

N. B.—The property will also be sold by auction on the same date Sunday 11th inst. at 1 o'clock and according to the above aviso.

EXTRACT
OF
TOBACCO.

According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.

Directions for use

One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

Rafango Stud

For sale a number of select Stallions 3 and 4 years old, of Shire, Yorkshin, Coaching, Hackney and Irish Hunter blood.

The above lot of horses can be recommended with entire confidence. For colour bone and action they cannot be surpassed to cross with the average mares of the country; to produce a saleable and generally useful horse for this country or for exportation.

The Rafango Stud of Hackney and other blood mares is probably the largest and most select in the Republic.

The Stud can always be seen by appointment. Apply
